THE STATE OF WYOMING }
STATE ENGINEER'S OFFICE } SS.

This instrument was received and filed for record on the 28 day of June
20 10 at 9:32 o'clock A M.

John R. Barnes for State Engineer

Recorded in Book 121 of Stock Reservoir Permits, on Page 88

Fee Paid \$ 25.00 Map Filed

WATER DIVISION NO. 4 DISTRICT NO. 15 TEMPORARY FILING NO. 35 4/74

PERMIT NO. 19468 STOCK RESERVOIR

NAME OF FACILITY

THE *Johnson*

STOCK RESERVOIR

1. Name(s), mailing address and phone no. of applicant(s) is/are 686 County Road 260 Fort Bridger
WY 82933
Andy and Katie Johnson 307-782-6862

E-mail address:

(if more than one applicant, designate one to act as Agent for the others)

2. Name & address of agent to receive correspondence and notices SAME

E-mail address:

3. The use to which the water is to be applied is in-place stock watering purposes.

4. (a) The area of the high water line of the reservoir is 2.5 acres (If a pipeline to additional points of storage will be used, include form SW4-A.)
(b) The capacity of the reservoir is 41.3 acre-feet.

(c) Body of Reservoir: Length 1275 600 Width 170 Average Depth 4.3

5. The source of the proposed appropriation is 3 mile creek trib. Black's Fork Crk. trib. Six Mile Creek, trib. Black's Fork River, Trib Green River

6. The outlet of the reservoir is located in SW 1/4 NE 1/4 of Section 30

T. 15 N., R. 115 W. Surveyed corner tie, if available: bearing
feet distant from the corner of Section T. N., R. W.

Lot Block Subdivision Name

Latitude (Decimal Degrees) 41° 15' 6.3" N Longitude (Decimal Degrees) 110° 25' 10.8"

7. Are any of the lands covered by the proposed reservoir owned by the State or Federal government? If so, describe lands and designate whether State or Federally owned.

8. Fill out either (a) or (b).

(a) The reservoir is located in the channel of Six Mile Creek

(b) The reservoir is to be filled through the
Canal, which has a carrying capacity of cubic feet per second (c.f.s.)

9. (a) The dam is to be constructed as follows Earth Fill watered + compacted
contents = cubic yards.

(b) The water face of the dam is to be protected from wave action in the following manner: Rock Rip Rap
1' thick

(c) Dam Height 18 feet.

10. The accompanying map is prepared in accordance with the State Engineer's Rules and Regulations for filing applications and is hereby declared a part of this application.

11. The estimated time required for completion of construction is 3 year

Date

THE STATE OF WYOMING

STATE ENGINEER'S OFFICE

TEMPORARY FILING NO. 35474

THIS IS TO CERTIFY that I have examined the foregoing application and do hereby grant the same subject to the following limitations and conditions:

This permit grants only the right to use the water available in the stream after all prior rights are satisfied.

If the plans show that no outlet works are contemplated, the State Engineer may, upon proper complaint by other interested water appropriators or appropriator, or when in his judgment it is necessary, require the later installation of such necessary outlet works as will permit proper regulation.

This permit is granted for storage of 5.07 acre-feet of water from all sources in any one year, for stock watering purposes only.

The holder of this permit shall inspect the spillway after each runoff event with the potential to flow through the spillway. Any erosion that has occurred shall be repaired in anticipation of the next runoff event.

This permit is conditioned on the holder of this permit securing and/or providing free and unencumbered access to this facility to allow State Engineer personnel to perform their duties as prescribed by Law. These duties include, but are not limited to, construction inspections and water administration.

The permittee is advised that this reservoir will inundate lands irrigated under Permit No. 9325. Pursuant to WS 41-3-107, the permittee has up to five (5) years to change the water rights to irrigate other lands or otherwise prove that the irrigated acreage is not affected by the construction of the reservoir. If the change has not occurred by the end of the five-year period, this fact will be reported to the Board of Control for routine abandonment of the water right attaching to the lands at or below the high water line of the reservoir, consistent with law.

The time for completing the construction of the reservoir shall terminate on December 31, 20 13.

Witness my hand this 25TH day of MAY, A.D. 20 11.

PATRICK T. TYRRELL, State Engineer

Permit No. 19468 Stk. Res.

PERMIT NO. 19468 STK. RES.

PERMIT STATUS

Priority Date June 28, 2010

Approval Date May 25, 2011

NOTICE

This permit, does not constitute a complete water right. It is your authority to begin construction work.

Notice of completion of the work described in the permit, must be filed in the State Engineer's Office before the expiration of the time allowed in the permit.

If extensions of time beyond the time limits set forth in the permit are required, requests for same must be in writing, stating why the additional time is required, and must be received in the State Engineer's Office before the expiration of the time allowed in the permit.

Once the Notice of Completion has been filed, Proof of Appropriation will be prepared and sent to your Water Division Superintendent. The Superintendent will arrange with you for an inspection of the facility. Should you desire adjudication, the Proof will be considered by the Board of Control, and, if found to be satisfactory, the Board will issue to you a Certificate of Construction which will constitute a completed water right.

The granting of a permit does not constitute the granting of right-of-way. If any right-of-way is necessary in connection with the application it should be understood that this responsibility is the applicant's.
